Concussion Fact Sheet for Athletes and Parents

WHAT IS A CONCUSSION

A concussion is an injury that changes how the cells in the brain normally work. A concussion is caused by a blow to the head or body that causes the brain to move rapidly inside the skull. Even a “ding”, “getting your bell rung,” or what seems to be mild bump or blow to the head can be serious. Concussions can also result from a fall or from players colliding with each other or with obstacles, such as a goalpost.

WHAT ARE THE SIGNS AND SYMPTOMS OF A CONCUSSION

Proper hydration and heat illness prevention needs the support and involvement of the:

Coach, Parent, & Athlete

Proper hydration and heat illness prevention requires a team effort between the coach, parent and athlete. It is essential for the athlete to be prehydrated prior to practice and rehydrate after practice. The information presented is to provide you with the knowledge you need to help the coach keep your child safe at practices and games. Your coach has received additional training in proper hydration and heat illness prevention. After review of the information and completion of the quiz, please acknowledge below and give to the coach.
