1718-6302-008 Continued - 2017-2019 Partnership Program Questions

Green Incentive

For New School or New Building, Green building incentive to be sought (Percentage of state financial participation)

C.2. Indicate how the school district intends to fund their share of the partnership program:

Note: If more than one source of district funds is to be used, indicate what percentage of the district's share of each type of funds will support the project.

- A. District share to be funded through existing operational fund balances: %
- B. District share to be funded through any State or Federal grant: %
- C. District share to be funded through bond already secured: %
- D. District share to be funded through bonds to be secured in an election during the course of the project: %
- E. Indicate the FY in which you intend to apply for permission to sell bonds to support this project:

C.3. Does the new construction project include work that could be classified as maintenance, repair, and renovation (and does not qualify for state financial participation)?

Total Maintenance, Repair, Renovation Costs contained in Total Cost (These costs ARE NOT eligible for state financial participation) ----->

Total New Construction Costs contained in Total Cost (These costs ARE eligible for state financial participation) ----->

C.6. Discuss how this new construction project conforms with sound educational practices. Does the project improve practices of the entire district, several schools, or only one school?

C.7. Discuss the new construction project's compliance with current academic facilities standards as contained in the Arkansas School Facility Manual, including, without limitation, appropriate space utilization of existing academic facilities in the district.

C.8. Discuss how the new construction project supports the prudent and resourceful expenditure of state funds and improves the school district's ability to deliver an adequate and equitable education to the public school students in the district.
