

4.75 – VANDALISM

Willful or malicious destruction, defacement or damage of public or private property will not be tolerated.

Since there are many degrees of vandalism, school authorities may suspend a student according to the seriousness of the offense. Minor offenses will be handled by the teacher or principal. More serious offenses will result in the following punishments:

First Offense

3 day suspension

Second Offense

5 day suspension

Third Offense

10 day suspension or 6 day suspension at Benton High School due to block scheduling

In each case a parent conference must be held before the student may return to classes.

Students who deface or damage school, personal or private property will be required to repair the damage themselves and/or pay the cost of repair or replacement of property regardless of disciplinary actions given to the student by school authorities.

Extra suspension or punishment could result until restitution is made.

After the offense recommendation may be made to the school board for expulsion for the rest of the school year.
