### Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations, student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded April 29, 2016.

When students' test and enrollment records were matched by school and student state identifier, the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record, but a matching enrollment record was not found, the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record, the demographic values from the student's enrollment record were used in ESEA percent tested calculations.

### School Performance

The school performance results in this report include students who completed a full academic year (not highly mobile) and completed a regular or alternate assessment. Students who were considered highly mobile were excluded from the calculations. All grades are included in the school performance for each subject.

### Average State Performance

The average state performance statistics listed in this report include students who completed a full academic year (not highly mobile) and completed a regular or alternate assessment. Students who were considered highly mobile were excluded from the calculations. All grades are included in the state averages for each subject.
