| <b>Poverty Rate</b> | 76.3                 |

Weighted Achievement scores reflect the extent to which students are demonstrating higher levels of achievement. When more students are achieving at higher levels, more points are earned. Over time, schools can increase their weighted achievement scores by moving more students from lower to higher achievement levels.

**Distribution of School-Level Weighted Achievement Scores**

The score 58.95 falls in the 55-60 bar of the state distribution of the weighted achievement score for the Elementary Level grade span.

| Exceeds (1.0 or 1.25*)           | 34             | 24              | 58           | 58                    |
| Totals                           |                |                 | 191          | 324                   |

**Weighted Performance Points Earned = (191 / 324) \* 100 = 58.95**

\*Note: If the number of students exceeding grade level-proficiency is not greater than the number of students in the lowest achievement level then schools earn a single point for these students. If the number of students exceeding grade level-proficiency is greater than the number of students in the lowest achievement level then schools earn 1.25 points per student for the number of students greater than the number in the lowest achievement level.

| Poverty Rate | 76.3                 |

State Distribution of School-Level Overall SQSS Scores

The School Quality and Student Success (SQSS) indicator combines measures of engagement, access, readiness, completion, and success criteria. Each measure focuses on the extent to which students are meeting important educational milestones (such as reading proficiently), important readiness criteria (minimum ACT score of 19 for Arkansas Academic Challenge Scholarship), and important postsecondary success indicators (attainment of AP, IB, concurrent credits).
